## MAGINTY'S BEST FRIEND

THE ONLY M'NICHOL.

Before Maginty went down in the sea—
As you have often no doubt heard tell,
He longed for a refuge, he longed to flee
Or even to hide in the depths of the well.
Often we feel disheartened, betrayed,
Tired of everything, weary of life,
Especially if with a high-toned maid
Who never would make a poor man's wife.

Down went Maginty and never got up,
He hadn't ambition to rise and soar;
He drank to the bottom of poverty's cup
And swore like a trooper to drink no more;
When he was gone from the sight of men,
Leaving his debts like a load to carry,
There i... doubt but his good wife then
...t a fool a girl is to marry.

But if you start and go the right way,
No one can blame you, woman or man;
Buying up goods with little to pay—
And that on McNichol's installment plan,
Easy and light is this yoke you assume
Never a load of debts at your back;
Soon you emerge from sorrow and gloom
Out on good fortune's sunshiny track.

Who could wish a surer device
For making a home than this I bespeak
When home is made so cosy and nice
By the simple paying of sums by the week;
Carpets and curtains, portieres in pairs,
Gas stoves and pictures—baby's new cab:
Neighbors see quickly things better than theirs,
This is for envy the cruelest stab.

Who would not have a neat and pretty home to enjoy when it can be had on such terms. By merely saving and paying by the week. It is all the style now to go to

...he would not be a candidate for Marshal un-
...less he, Mr. Kinsey, placed his name before
the President and Attorney-General. Mr.
Kinsey then took up the papers of Ira D.
Warner of St. Louis County. Mr. Warner
served all through the war, but it was
thought he would not be as acceptable to the
Republicans of Mr. Kinsey's District
as some other man. The names
of these two parties Mr. Kinsey presented
with the facts, just as they have been stated,
to the Attorney-General and the President,
leaving the impression that either selection
would be acceptable to him. On the other
hand, some weeks ago, Miss Phœbe Couzens
stated that she had numerous charges of de-
reliction on the part of Marshal Emerson
which she intended to present to the
President, and which she likely did do with a
view of his removal from office. These com-
plaints were published in these dispatches at
the time. Learning of Miss Phœbe's efforts,
with a vacancy almost in sight, Frank Buch-
anan, wearing his Grand Army badge, came
to the Capital. About the same time charges
were made that the Marshal's deputy at
Hannibal, Mo., was not the sort of a man to
represent the Eastern District Marshal's
office, yet he was in the service with the con-
sent and knowledge of Marshal Emerson. Mr.
Buchanan stirred up things in lively style at
the Attorney-General's office and was given
to understand that he need not hurry home.
Mr. Buchanan was earnestly assisted in his
effort by Maj. Brock. Remaining here as he
did for two weeks he caught the plum on the
fly. The new Marshal is a tall, raw-boned
looking man with penetrating eyes and a close
cropped mustache. It is said that during
President Grant's time he was Collector of
Internal Revenue for the district in which
he resides, and that there was
an open rupture between himself and
the President. In the late contest it
was his idea that Congressman Kinsey de-
sired to have the appointment of a Marshal
postponed until after the nominations were
made this fall, and he did not fail to so ex-
press himself. Among others who were
named in connection with the office were
Henry Erb and John McFall of St. Louis.
The last named retired from the contest
some months ago, having interested himself
in other pursuits at the time.

The advance sheets of Jeff Chandler's
speech at the Pickwick Theater, St. Louis,
this evening, have put in their appearance
in great shape. There are five sheets of it,
each about a foot and a half long.

The report that Congressman W. L. Wilson
of West Virginia was about to retire from
public life to accept the Presidency of the
State University of Missouri is not confirmed
by that gentleman. Mr. Wilson says the
Board of Curators of the State University of
Missouri and many of the leading men in that
State have on several occasions recently in-
formed him verbally and by letter that the
Presidency of the college is at his disposal,
and the tender will be promptly made
if he will accept it. Inducements
quite tempting in the way of
compensation, including a college
residence, were held out, but after considering
the subject seriously he has concluded
that he will remain in West Virginia. While
Mr. Wilson's Congressional duties are laborious
and the expenses attending political elec-
tions unreasonably high, he, nevertheless,
finds his present occupation very congenial
and he has so informed the officers of the
Missouri University.

A bill was introduced in the House yester-
day by Mr. Wilson of Missouri, granting Lake
Contrary to the city of St. Joseph.

### Smokeless Powder for Small Arms.

By Telegraph to the POST-DISPATCH.

WASHINGTON, D. C., April 1.—If the smokeless powder for small arms, which the Messrs. Dupont, the American powder manufacturers, have obtained from the firm of Wettern at Belgium, one of the makers of the Swiss and German powders, proves by experiments to possess all the merits claimed for it, the Chief of Ordnance of the Army will recommend that a magazine gun board be convened to select a new standard small arm for the use of the troops. The department is already satisfied that the time has come for a reduction of caliber for small arms and, as hitherto stated, the caliber of thirty has been agreed upon. The next question is the magazine mechanism. There are several American devices to select from.

### A Lager Beer Bill.

WASHINGTON, D. C., April 1.—Senator Stewart to-day introduced a bill regulating the manufacture, sale and importation of lager beer. For the purpose of the act, lager beer is defined to be the beverage made exclusively from hops, malt and water. Any other fluid is designated as adulterated lager beer. The bill imposes taxes upon brewers of and dealers in adulterated lager beer with heavy penalties for failure to take out the license. All packages containing the beverage shall be branded "Adulterated." Adulterated lager beer imported shall pay the duty imposed on lager beer.

A third call resulted in showing a quorum present, and the journal of yesterday was approved.

#### The House.

WASHINGTON, D. C., April 1.—Mr. Oates of Alabama, from the Committee on the Judiciary, reported a resolution reciting that it is alleged by the Attorney-General that in many United States courts the practice of suspending sentence after conviction in criminal cases is without warrant of law and that in some parts of the country United States District Attorneys, Marshals and deputies and United States Commissioners have been guilty of maladministration and corruption in office and directing the Committee on Judiciary to inquire into the extent, cause and effect of such illegal practice. ## THE CYCLONE SUFFERERS.

### PLENTY OF MONEY AND OTHER RELIEF POURING IN.

**Homes Provided for Those Rendered Homeless—Work on the Ruins Being Pushed Rapidly—The Falls City Hall Victims—A Water Famine Threatening Louisville—The Damage at Other Points.**

LOUISVILLE, Ky., April 1.—The work of providing homes for those rendered homeless by last Thursday night's storm goes on as rapidly as possible. Work on the damaged houses is well under way, but the disagreeable weather still prevents the progress that could be made if it were more favorable. Yesterday the snow and rain did considerable damage to the furniture in the damaged dwellings. On Main street signs have been posted on many of the stores, partly wrecked as they are, announcing the readiness of the proprietors to receive and execute orders as usual.

Mayor Jacobs said yesterday that all the bodies had been recovered and that he was satisfied that 150 would cover the total number of those killed outright and who would die from injuries received in the storm. The greatest suffering, he said, had fallen on the poorer classes who had by thrift and economy and years of saving accumulated enough to build their own houses. The Mayor is now satisfied that it was a wise move to place the city under martial law pending the search for the bodies and valuables under the debris.

Yesterday Ed Myers, Isadore Lowenstein, A. Marks and Ike Edelman, Russian Jews, were arrested and locked up on the charge of arson. They were caught building a fire in a demolished store at Tenth and Market streets. The fire was extinguished before it could make any headway.

An unknown thief stole all the jewelry belo... to Mrs. Bornwell, wife of the rector of St. John's Church. The thieves were of a ghoulish nature, as they went further and stole the watch and chain from the body of the dead rector.

The relief fund yesterday reached $111,000, and during the day the Board of Trade received $17,000 new subscriptions. At a meeting of the Executive Committee yesterday, a resolution was adopted in reply to inquiries from at home and abroad, announcing that contributions would be received and were requested. This money will be applied for the relief of the most needy of the sufferers.

RELIEVING THE VICTIMS.

The work of relieving the needs of the tornado's victims in this city progresses very satisfactorily. The contributions are coming in with gratifying liberality. They are being systematically applied. Notwithstanding the unfavorable weather work is being done toward restoring and repairing the devastated districts. The work of removing the debris from Falls City Hall has been abandoned. There are probably no other bodies in the ruins. The first reports did not exaggerate the number of people who were in the hall. No correct estimates could be given of the number killed, because a great many escaped who were generally supposed to have met death beneath the ruins. It has been advertised for the past few days that all survivors are requested to report at the office of Chief of Police. If no inquiries come in for the missing no further work will be done on the ruins. One of the greatest dangers in the present situation is that of a water famine. The water in the reservoirs is low and even at a reduced rate of consumption there is not more than three days' supply and no immediate prospect of pumping in any more. The pumping station is crippled, the stand pipe is wrecked, and the water company is paralyzed. The warehousemen have done all they could do to protect their tobacco from a possible spell of wet weather. They have piled their hogsheads in those portions of their houses which are still protected by the remnants of a roof and have spread tarpaulins over their exposed wares. But in the event of a hard and ...dy rain, even after such precautions, a great ...al of tobacco will be damaged.

### Golconda, Ill.

GOLCONDA, Ill., April 1.—The losses occasioned by Thursday's cyclone increase as additional reports come in. The storm passed over the lower part of this county with terrific force, whirling in a track about a fourth of a mile in width. A visit over the path of the storm shows that the first reports were not at all exaggerated. Trees and farm houses were picked up and tossed about like straws. Some of the houses were torn into pieces and the boards carried fully a mile away. The path of the storm is marked by carcasses of cattle, hogs and fowl. The people whose homes were ruined by the storm's fury are reported in great want and steps are being taken for their relief. They are in immediate need of ... and funds to buy lumber to rebuild their ... A meeting was held yesterday by the ...olconda to devise means for the ...sufferers.

...rents and the river is rising rapidly and threatening another overflow. The rain has destroyed considerable property, coming as it did before the people had time to put new roofs on their buildings. A conservative estimate places the loss occasioned by the cyclone and rain in the neighborhood of $150,000.

### A MOST SUCCESSFUL OPENING.

**Snow and Slush Fail to Keep the Crowds Away From the Straus-Emerich Co.**

The Straus-Emerich Outfitting Co., at 1123 and 1125 Olive street, had one of the grandest openings yesterday ever had in the West. The people crowded into the large rooms in droves, and at one time there were 5,000 people in the building. Three souvenirs were given away, a framed engraving, an elegant fan and a blotter. Of these 30,000 were given away.

"When I came down in the morning through the snow and later saw the slush on the streets," said Mr. Straus, "I did not expect anybody here at all. The crowd was the greatest surprise I ever had. We could not possibly have accommodated any more. Every floor was crowded. The people filed in one way and out the other. Had it been a clear day we would undoubtedly have had to close and lock our doors, as we could not possibly have found room for those who would have been here. We just simply had to give up any idea of attending to our customers and give our whole time to looking after our guests."

The people began to pour in at 10 o'clock in the morning, and from that on it was an endless string of visitors. The entrance was banked with tropical plants, while on the inside, in the private office, where it would not take up any of the valuable space, a string band was stationed, playing through the day up to 9:30 in the evening. The establishment was also fixed up very tastefully from one end to the other and from top to bottom and the remarks of admiration as the people passed through was certainly very encouraging to the members of the company.

The Straus-Emerich establishment is an immense one and its stock the largest in the West of its class. The Outfitting company, at the same time, is the largest time-payment one in the world, with two branches in Chicago, three in Baltimore, one in Washington and one in Philadelphia. The St. Louis house is one which it is a pleasure to visit. There are five floors packed with goods for the public trade and a sixth used for storage purposes.

On the first floor is an elegant line of fine bedroom sets, folding beds, sideboards, fancy rockers, mirrors, chandeliers, lamps, etc., all of the latest design and most complete workmanship.

On the second is a line of carpets and upholstery goods, where the most fastidious can be pleased in a selection at reasonable prices.

The third floor is given up to house-furnishing goods in general, and the clothing department. The stock is an immense one.

On the fourth floor are parlor suits, cabinets, desks, wardrobes, hall racks, bric-a-brac, lounges, couches, etc., all of the latest designs and finest workmanship.

The fifth floor is given up to medium and cheap bed-room sets, dining-room chairs, kitchen furniture, bedsteads, bedding, cooking and gas and gasoline stoves, crockery, glassware, etc.

The sixth floor is used as a storage room.

### A Brutal Wife-Murder.

By Telegraph to the POST-DISPATCH.

LONGVIEW, Tex., April 1.—A terrible murder in Panola County, near Beckville, a small place on the Sabine Valley Railroad, thirty miles out of here, occurred last Saturday. It seems that a farmer named Jake Smith was a habitual wife-beater, from which punishment his wife often escaped by flight to neighbors near by. During this last difficulty the wife escaped, but was followed to a neighbor's and persuaded to return home where, from the looks of things, the chastising was renewed, when the wife again tried to escape, but was brained with an axe, after which the brutal husband left, and thus far escaped the mob fury, who are scouring the woods.

# Purify Your Blood

The importance of thoroughly purifying the blood this spring cannot be overestimated. The extraordinary epidemic of "the grip" and other diseases, the unhealthful winter, close confinement in doors and carelessness in diet, have caused accumulation of impurities in the blood which must be expelled before you can feel well and strong again. The universal praise given Hood's Sarsaparilla by those who have taken it, should certainly convince you that it is the ideal spring medicine. It acts especially and immediately upon the blood, overcomes physical weakness, revives the functions and creates a good appetite. Try it this spring.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

**...of Them Are to Get a Two Months' European Trip, and the Third a Splendid Watch, Chain, Etc.—Reports of All the Ballots Cast Up to Noon To-Day—How the Contest Is Viewed by the Public—An Election Which Interests Not Only the Men, but Every Woman and Child in the City.**

"How many applications do you have for your SUNDAY POST-DISPATCH from the children of your neighborhood?" asked one gentleman of another on an east-bound Olive street car this morning.

"Oh! a great many," was the reply. "Were they after you?"

"Yes, in tens. My grocer tells me that he had twenty-eight separate and distinct calls for the paper within an hour from children who wanted to get the popular teacher ballot."

And so the talk went on. The election for the two most popular lady teachers in the schools of St. Louis is the topic of conversation everywhere. For a day or two, the Louisville disaster partly took its place, but the disaster is now old news, while the election is booming. One feature that seems to strike everyone is the originality of the idea. To select the two popular lady teachers by a general ballot and to send them to Europe at the expense of the SUNDAY POST-DISPATCH is a plan never broached before. The addition of the third prize for the teacher receiving the third highest vote is a feature which makes the contest much more interesting. As is well known, the two teachers who receive the highest votes will be tendered a free trip to Europe at the expense of the SUNDAY POST-DISPATCH. They will be provided with Cook's tickets and will make the journey under the guidance of that well-known excursion company.

The teacher who receives the third largest vote will be presented with the elegant gold watch and chain, set with diamonds, donated by the Mermod & Jaccard Jewelry Co., on exhibition in a window of the firm at Broadway and Locust.

For full particulars of the contest, see the rules, which are printed below.

### Another Splendid Offer.

ST. LOUIS, March 31, 1890.

*To the Editor of the Post-Dispatch:*

That was a very beautiful idea, originated by the SUNDAY POST-DISPATCH of lending its columns to the public to select by their votes the two most popular lady teachers of the St. Louis schools and to reward that popularity by giving the fortunate ladies a trip to Europe. We heartily indorse the enterprise and liberality of the POST-DISPATCH and to emphasize our approval, we cordially invite the two successful teachers to select from our stock, without any restrictions whatever, any two garments of any style or value they may desire. Very respectfully yours,

THE PARISIAN CLOAK CO.
Albert A. Aal, Manager.

### Questions From Voters.

ST. LOUIS, March 31, 1890.

*To the Editor of the Post-Dispatch:*

Can you tell, through the columns of your paper, what school Miss Laura J. Tichnor is in? I knew her when she taught in the Ames, and from there she went to the Carr Lane, but I don't know where she is now. You will favor one who wants to vote for her.

A FORMER PUPIL.

[Miss Laura J. Tichnor is now teaching at the Roe School, Mitchell avenue, near Prather avenue.]

### FILLING THE BALLOTS.

ST. LOUIS, March 31, 1890.

*To the Editor of the Sunday Post-Dispatch:*

Please let me know through your paper if you are allowed to fill the blanks out in lead pencil or do you have to fill them out in ink.

Please let me know as soon as possible, as I am interested in the welfare of Miss Annie Todd of the Cote Brilliante School.

I think the POST-DISPATCH is very kind to think of the teachers and hope they will have a success. I remain very respectfully,

Miss M.

[You can fill them out with lead pencil, but ink will be more permanent.]

### Illegal Ballots.

But one illegal ballot has been received at this office this week. That was cast for Miss Jennie Chase of the Blow School and was written on note paper. The attention of the voter is called to the rules, printed elsewhere, which emphatically state that all votes must be sent in on the official ballot, which is to be found only in the SUNDAY POST-DISPATCH.

### RULES OF THE CONTEST.

In order to make the plan of election plain to all, the following rules are here given:

Any lady teacher connected with any school (public or private) in the city, in any capacity, can be voted for.

Any person can vote who complies with the following conditions:

Get any copy of the "Sunday Post-Dispatch," cut out the ballot you will find there until the election is over.

Write on it the name of the teacher and her school and your own address, and send it by mail, messenger, or any other way, to this office.

You can vote for the same teacher as often as you please. Every time you get a ballot you can send in a vote.

The only qualifications for voting is to cut out the ballot in the "Sunday Post-Dispatch" and fill it out as directed above.

But one teacher can be voted for on each ballot.

Ballots containing the name of more than one teacher will not be counted.

Remember that all lady teachers connected with any public or private school in the city, as principal, assistant, substitute, lector, music teacher, drawing instructor, in any other way can be voted for.

This last proviso includes kindergartens, private colleges, seminaries, parochial schools, in fact any place of learning.

You can secure copies of the "Sunday Post-Dispatch" at this office or at any of the branch offices in the city.

See that your friends all get the "Sunday Post-Dispatch" and if they do not wish to use the ballot ask them to save it for you.

Remember that every copy of the "Sunday Post-Dispatch" contains one ballot and that each ballot means another vote.

Any questions that may arise will be answered at once in this column.

Should fully the rules here given before, you cut your ballot and then direct it as follows:

### THE STOCK BROKERS.

**A Very Dull Day, With No News of Importance—General Gossip.**

By the Gaylord-Blessing Private Wire.

From New York, 9 a. m.—An extra issued this morning reports the fifteenth crevasse on the Mississippi River broken, causing a panic at Austin, Miss., and that all the levees were wavering. At the Windsor last evening there was more bull than bear gossip, though it was universally admitted that stock speculation was dull as ever. It was thought last evening at the Windsor that Louisville & Nashville would advance to-day, and that the grangers would improve. There is strong talk on Atchison, too, and when the market starts again Wheeling Common is to be a card. The latter is recommended as a safe buy now.

* * *

Chicago, 9 a. m.—Louisville Southern has broken alliance with L. N. A. & C. and will be operated independently hereafter.

* * *

New York, 10 a. m.—The few stocks that have been quoted are ⅛@⅜ higher than yesterday's closing. The volume of business so far would not physically disable one broker if he had it all. It looks as if Atchison would sell higher.

New York, 12 noon: The market, though dull, has a little more life than it had yesterday; prices have hardened gradually since the opening, and now, at noon, are from ¼ to ⅝ per cent higher than they were last evening. There is no special news to affect prices, but there is an expectation that favorable advices as to Western railway affairs will soon be made public and traders are disposed to look for profits on the long side of the market. There is also some little investment buying; the April disbursements made by corporations and the government are estimated to exceed $50,000,000, and a large portion of this will be reinvested. Money is easy.

### Ex-Banker Claassen Indicted.

NEW YORK, April 1.—The United States Grand-jury this morning handed in an indictment against P. J. Claassen for embezzlement, abstracting and misapplying funds of the Sixth National Bank and making false entries. Arguments will be had on the indictment at 2 o'clock on Friday, April 11. The trial proper is set down for May 7.

### Jay Gould in Mexico.

CITY OF MEXICO, via Galveston, April 1.—It is reported as probable that a deal will be made with Jay Gould for the Chamella Rail road, but the report is doubted, as the railroad concession is now in the hands of a European syndicate. Another rumor has it that Mr. Gould will establish a steamship line from the United States to Mexico and Central South American ports.

### THE BENTON-BELLEFONTAINE LINE PURCHASED BY JAMES CAMPBELL.

**He Is To-Day Elected a Director and President—The Price Paid Nearly $400,000—The Line the Initial of the North and South Rapid Transit System—Transfer Tickets Proposed.**

HE Benton and Bellefontaine Street Railway Co., this morning had its annual election of directors, the board chosen being composed of Messrs. Charles Parsons, James Campbell, John T. Davis, George E. Leighton and Robert McCulloch. Later Mr. Campbell was elected President. There have been rumors for several days that the road had been sold and that the Chicago syndicate, owning and operating the Citizens', Cass Avenue, Northern Central and Union companies, were the purchasers. The result of the election and street talk this morning, however, was that Mr. James Campbell had swallowed up the property, to be operated in connection with his projected north and south Rapid Transit Railway Co., and that instead of being added to the syndicate system the road will be the initial one of an entirely independent system, and the forerunner of an arrangement by which all of the roads in the city will transfer tickets, enabling people to go from one end of the city to another on two different roads on one fare. This is the plan as it is believed to have been mapped out, but the parties connected with it as yet refuse to speak of it.

THE CHICAGO SYNDICATE

has, it is said, without doubt counted upon securing the Benton-Bellefontaine to be added to their already extensive system, and have had no fear of any other interest stepping in and carrying it off. Their confidence has in a large measure been due to the fact that Capt. Robert McCulloch, the general manager, is also general manager and secretary, treasurer and vice-president of the company. With this influence on the inside, though with Capt. McCulloch's knowledge, they did not count upon any outsider coming in, and so postponed any step in the direction of closing in on the stock until they had more fully recovered from their already extensive purchases here and elsewhere. When that time came the Benton-Bellefontaine would be but a small bite for so capacious a maw, and they could swallow it up without any trouble. There has been a great deal of activity in street railway circles in general, however, and other parties have been figuring as industriously as those of the syndicate, and as a result the latter have been left out in the cold. As the story goes Mr. Campbell has had

HIS EYE ON THE ROAD

ever since he took down his map, laid out a route from Eighteenth and Cherokee streets to the cemeteries on the north, incorporated and applied to the Municipal Assembly for a franchise for the North and South Rapid Transit Railway Co. He began figuring at that time, it is said, and has been at it ever since, and has been industriously gathering in the Benton-Bellefontaine stock until he has now just about ... all of it. Whether he has done ... or whether he has others associated with him, is uncertain, but the idea among those who are in a position to know something about it, is that the investment is an individual one. The North and South Rapid Transit Railway, as projected, will cut into the Benton-Bellefontaine very badly. The territory will be divided so completely that it will almost necessarily make the two roads one. At the same time, the opinion of street railway men is that they can be operated together to the advantage of both, as their management can be made more economical, and as they can be used to some extent as feeders one for the other. The system of transfer tickets, it is said, will follow in due time, as Mr. Campbell has for a long time been an advocate of that plan of street railroad management.

THE CONSIDERATION

in the sale is said to be approximate in the neighborhood of $400,000, a good premium for the stock in bulk. The capital stock of the company is $324,000 and the bonded indebtedness $50,000. The stock has been held in few hands and very closely, so that it is difficult to get a market on it. Sales have been infrequent and the last one was at $95. This is nominally the market, though it can hardly be regarded as the actual market, as the trading has not been enough to define what buyers are willing to give. The price in this case is certainly considerably above this figure, it is said, and probably above par. The parties to the sale, however, refuse to give any statement whatever as to the price paid, or even as to the nominal market for the stock. On this one point they are very reticent, though they admit that the sale has been made. The principals to the sales as admitted are

MR. JAMES CAMPBELL AND MR. CHAS. PARSONS,

the former the purchaser and the latter the President of the company. Mr. Campbell when seen this morning refused to discuss the transaction in any way. When told that he was generally supposed to be the purchaser he smiled innocently and replied:

"I must decline to say anything whatever on the subject, though I know all about it?"

Mr. Parsons was no more communicative. He knew nothing of the matter and referred to Capt. McCulloch as Vice-President, saying he would give any information desired. When again questioned he said:

"Go and see Mr. Campbell. He is the man for you to talk to."

Capt. McCulloch, when seen, did not fulfill Mr. Parsons' idea of giving particulars, as he said he knew of nothing at all, and could not give anything, further than to say that there had been no transfers of stock on the books, and nothing to indicate a sale of any.

THE REORGANIZATION OF THE BOARD

this afternoon brought further and definite proof, however, as to the purchaser. Shortly after the formality of announcing its election had been gone through the new board met. The only changes were in Mr. Campbell succeeding Edward Whitaker and John T. Davis succeeding J. G. Chapman. The election of a president being in order, Mr. Campbell was nominated and elected without opposition. One of the directors present then told a POST-DISPATCH reporter what had been done.

"John T. Davis, George Leighton, Charles Parsons and J. G. Chapman, for themselves and their friends, have sold their interest in the road to Mr. Campbell. They are the large stockholders and have always had the control, as votes in their holdings Mr. Campbell secures nearly all of the stock. He can get all of it if he wants it, and I guess he does. What he proposes to do with it we do not know, though I suppose he will make it a part of his proposed north and south system."

THE BENTON-BELLEFONTAINE

road is one of the best paying pieces of railroad property in the city. While many other roads have been compelled to pass dividends, it has paid 6 per cent regularly on its stock for fifteen years. It was built originally by Wm. H. Benton, Judge Krum, R. C. Shackelford, Wm. Ballentine and others, but in 1875 was sold at the Court-house for defaulting its interest. It then brought 167,500. It has a franchise to run ... from the bridges on Washington avenue, north to Calvary Cemetery, and now has a road constructed three squares north of the Water Tower. It has yet a mile and a half to build to reach Calvary Cemetery. With its change of motor to electricity, this extension will probably be constructed. The franchise has forty-four years yet to run. In addition to paying 6 per cent on the stock it has paid 7 per cent on its bonds, as, as

### THE OBSEQUIES OF THE DISTINGUISHED PRELATE AT MILWAUKEE.

**Cardinal Gibbons and Many Prominent Dignitaries of the Roman Catholic Church Participate in the Solemn Services in St. John's Cathedral—A Scene of Grandeur in the Sacred Edifice.**

MILWAUKEE, Wis., April 1.—Cardinal Gibbons, three Archbishops and twelve Bishops were direct participants in the services over the remains of Archbishop Heiss at St. John's Cathedral this morning, while fully 150 priests formed part of the immense multitude that filled the capacious temple. Punctually at 9 o'clock the clergy, who had assembled in the schoolhouse north of the Cathedral, filed in to chant the solemn office for the dead. The priests wore their cassock, surplice and beretta, and in strong contrast with the snowy surplices were the somber, brown habits of four Capuchin monks, who walked at the head of the procession. The long line moved slowly up the center aisle past the body of the dead prelate to the chancel, within which the priests were seated on both sides of the altar. Then began the solemn chant which was led by Father Thill of St. Mary's Church. The scene was highly impressive. Except for the flashes of color from the stained-glass windows and the twinkling lights of the candles on the altar and beside the bier, the interior of the cathedral was perfectly somber. The crowd that filled the seats and aisles maintained a religious silence and only the dirge-like strains of the Psalms was heard. The services occupied about three quarters of an hour and at its close the priests again formed in line and filed out through the sacristy to the clergy house where the priests were forming to re-enter the cathedral in company with the bishops, archbishops and Cardinal Gibbons. The Cardinal stood in one of the parlors conversing with the bishops. He was clad in his vestments and was distinguishable among the throng of prelates by the red beretta, which he wore upon his head. When the Cardinal stepped out into the hall the priests who were passing knelt and kissed his hand. Archbishop Ireland was similarly saluted. While they were waiting to take their places in the procession Bishop Dwenger of Fort Wayne came in, when Cardinal Gibbons, uttering an exclamation of pleasure, embraced him. In addition to the priests who participated in the former services, there were in the procession Cardinal Gibbons, Archbishop Elder of Cincinnati, Archbishop Feehan of Chicago, Archbishop Ireland of St. Paul and Bishops Cotter of Winona, McCollich of Duluth, Hennessy of Dubuque, Foley of Detroit, Janssen of Belleville, Ill.; Marley of Sioux Falls, Dwenger of Fort Wayne, Richter of Grand Rapids, Mich.; Katzer of Green Bay; Flasch of La Crosse; Bunsaum of Lincoln, Neb., and Zardelli of St. Cloud, Minn. THE MARCH RECORD.

The comparison of the advertising business done by the POST-DISPATCH last month and in the corresponding month last year shows that, in March, 1889, the daily and SUNDAY POST-DISPATCH contained 800 columns of paid advertising, while last month the amount was increased to **957** columns.

This is a most gratifying increase, and is an evidence that the POST-DISPATCH is gaining in that public favor which has made it the most popular paper among St. Louis advertisers.

A count of the want advertisements shows that the five Sunday issues of March, 1889, contained 3,801 separate advertisements, while the five Sunday issues of March, 1890, contained **5,872** advertisements—a gain of **2,071** advertisements, or of more than **50** per cent.

The POST-DISPATCH will continue to deserve its prosperity by giving the public the best evening paper and the best Sunday morning paper in the country.

ONE tariff bill at a time is enough, and we hope the Democrats will not bother Congress and the public mind with a substitute for the Ways and Means bill. They cannot pass any bill through either House. The best work they can do is in the way of exposing each bad feature of the Republican bill, and in helping its Republican opponents to amend or defeat it.

THE CHINESE AROUSED.

**A Movement to Secure the Rights Denied Them by Legislation.**

NEW YORK, April 1.—All day yesterday crowds of Chinamen surrounded the bill boards in front of 16 Mott street, trying to learn the contents of a five-foot Chinese poster of flaming red paper with gilt edges. This is a translation of a part of the proclamation:

"We, the undersigned committee, do respectfully inform you that the principal cause of our continued persecution by the races who differ from us in civilization and language is the fact that we have no voting power, that power having been unjustly denied us by reason of partisan legislation through political rascality. This unjust legislation against us has been discovered by us recently to be unconstitutional, and it is our sincere belief also that such unjust dealings with the Chinese do not represent the true sentiments of the blue blooded Americans. We now desire our fellow-countrymen to unite with us in an effort to present our many grievances in a proper manner before the American people. This is an important movement, a movement that needs not only good words, but good money to back it. Let all those who wish to enter into this matter with heart and money report at 9 Dover street."

Mr. Wong Gong, the head of the committee which signs this document, said to a reporter:

"I have been living here as an American citizen for sixteen years and lived like an Alderman, too. When I went to get my full naturalization papers the other day the officials at the court laughed at me and told me that if I had been born over again right in New York, if my parents were Chinese, I could not become a citizen. I got mad and have been working hard ever since to get vengeance. If all the Chinese whose rights are denied them, will join me, we can obtain what we want."

Among the articles now on the free list the following have been made dutiable:

Chair canes, manufactured, but not made up into finished articles, 10 per cent ad valorem.

Since the publication in these dispatches about two weeks ago of the abstract of the tariff bill, some changes have been made in the dutiable sections. These, in addition to changes of importances in existing law not specified at the time, are indicated below, the present rates of duty being inclosed in parenthesis in cases where comparisons are necessary:

Glue (20 per cent) ranges from 1½ cents per pound to 30 per cent ad valorem, according to value.

Sulphur, refined rolls ($10), $8 per ton; sublimed ($20), $10.

Glycerine, crude (2 cents), 1 cent per pound; refined (5 cents), 4½ cents,

Cottonseed oil (25 cents), 10 cents per gallon.

Soda bi-carbonate (1½ cents) 1 cent per pound.

The schedule covering earthenware and glassware has been rearranged somewhat and the changes of importance not already noted are: Fire brick (20 cents) $1.25 per ton plain, 45 per cent ornamented or glazed; other brick, plain (20 per cent) 25 per cent, ornamented, 45 per cent.

Decorated glassware (45 per cent) 10 cents a pound and 50 per cent., thin blown glass 10 cents a dozen and 40 per cent, heavy blown glass 5 cents a pound and 40 per cent, porcelain or opal glassware from 25 cents to 75 cents per dozen and 50 per cent. [The above are new classes.]

Unpolished cylinder, crown and common window glass (1⅜ to 2⅛ cents a pound) 1½ to 3 cents a pound. Polished cylinder and crown glass, sizes less than 16 by 24 (now 2½ cents per foot) are not provided for specifically, and will pay 4 cents. The same is true of cast polished plate-glass (now 3 cents per foot below 10x15), which will pay 5 cents. So in plate looking-glass the small size (now 4 cents a foot) will pay 6 cents.

Schedule C—Metals: Allows pyrites containing more than 25 per cent of sulphur to enter free, and prohibits allowance for moisture. The other important changes in this schedule, railway iron, tin plate and wire fencing, have already been noted.

Penknives and pocket cutlery (now 59 per cent) shows a sharp increase from 12 cents to $2 per dozen, and 50 per cent.

In the wooden schedule timber is cut 50 per cent; sawed white boards ($2 per thousand) is placed at $1.50, and a safeguard against export duties on logs is provided to equal the excess in that duty.

THE REDUCTION ON SUGAR.

Sugar stands as already noted, 33 per cent below number 16 and 45 per cent above that number, which amounts to 50 per cent reduction on some grades and more than that on others.

Molasses above 56 degrees (8 cents a gallon) is placed at 25 per cent, with a safeguard against an export duty.

Cigars, cigarettes and cheroots ($2.50 per pound and 25 per cent) are placed at $3 and 25 per cent. The clause fixing the duty on leaf wrappers (unstemmed 75 cents, stemmed $1 a pound) establishes rates of $2 and $2.75 respectively, and has a proviso that if any portion of a bale is suitable for wrappers, the entire bale shall pay wrapper duty.

The liquor schedules remain substantially as at present, with the addition of effervescent mineral waters, natural and imitation, which are made dutiable at 25 cents and 60 cents a dozen bottles, according to size.

Cotton manufactures are practically as fixed in the Senate bill of last Congress.

In the hemp, flax and jute schedules, cables, cordage and twine of Manilla, including binding twine (2½ cents) is made 1½ cents a pound.

On wool the duties are as already stated.

Under the silk schedule a bounty clause, to operate for ten years, provides for the payment of $1 per pound on silk produced and reeled in the United States, and 7 cents per pound on cocoons.

Under the head of books, paper and pulp, wood pulp (10 per cent.) is fixed at $2.50 per ton for ground, $6 for unbleached and $7 for bleached chemical pulp.

Leather belting and sole (15 per cent), 20 per cent; calf skins, dressed (20 per cent), 25 per cent; kangaroo, sheep and goat skins, dressed (20 per cent), 25 per cent; skins for morocco, tanned, but unfinished (10 per cent), 15 per cent; gloves, kid or leather, in whole or part, in any stage of manufacture (50 per cent), valued at $5 per dozen, $1.50 and 20 per cent between $5 and $8 in value, $2 per dozen and 25 per cent: above that 50 per cent.

Pianos (new class) 25 per cent.

Following the dutiable schedules and free list in the bill are administrative sections mainly reiterative of existing laws.

INTERNAL REVENUE PROVISIONS.

The internal revenue provisions make up the remainder of the measure. They abolish all special taxes upon dealers in leaf tobacco, dealers in tobacco, manufacturers of tobacco and cigars and pedlers, but these persons are required to register their names and addresses as at present. All restrictions upon tobacco-growers in regard to the sale of their tobacco are also removed. The tax on smoking and manfactured tobacco and snuff is reduced from 8 cents to 4 cents a pound. Provision is made for a rebate to manufacturers and dealers on original factory packages of smoking and manufactured tobacco and snuff, cigars, cheroots and cigarettes held at the time the law goes into effect of the full amount of the reduction made by the bill.

Section 33 of the bill repeals all laws allowing the distillation of fermented liquors except in an authorized distillery, and the laws allowing the use of alcoholic vapor in the manufacture of vinegar.

Section 40 confers upon producers of sweet wine who are also distillers the right to use wine spirits to fortify their wines except in May, June and July of each year.

The entire bill makes a closely printed document of 152 printed pages. According to arrangement the full committee will enter upon its detailed consideration immediately, and amendments may be offered during the next ten days.

HIS FELLOW WORKMAN.

**The Effects of Jacob Busch Identified To-Day by John Geibel.**

On the afternoon of January 21 last a gardener, while engaged in trimming the trees in front of the residence of John Stork, 1110 Armstrong avenue, lost his balance and fell headlong to the sidewalk beneath. His skull was fractured, and he died at the City Hospital the following day. There was nothing on his person which would in any way fix his identity, and he was buried from the Morgue at the city's expense five days later. Opposite the record of his case in the Coroner's register is written the word "Unknown."

Yesterday afternoon John Geibel, a gardener at Shaw's Garden, called at the Morgue and asked to see the description of the deceased. This being read to him, he at once declared that the unfortunate man was undoubtedly one Stephen Busch, who had disappeared from his accustomed haunts at about that time. Busch was a married man, about 45 years of age, and a gardener by occupation. His wife, who is demented, is confined in the St. Louis Insane Asylum, while his three children are at the German Protestant Orphan Asylum on the St. Charles Rock road. Geibel will call at the Corner's office to-morrow and make affidavit to his statement.

GLAD SHE WAS RESCUED.

**A Young Woman Attempts Suicide by Drowning, but Repents.**

By Telegraph to the POST-DISPATCH.

NEW YORK, April 1.—"I am so glad you rescued me," said Mrs. Augusta Machmard, a German woman, to a policeman and the deck hands of a ferryboat at the foot of Broadway, Williamsburg, yesterday morning. The woman had attempted suicide by jumping into the water as the boat was leaving the slip. With difficulty she was rescued. She stood in the ferry-house shivering after her cold bath, with water running from her soaked clothing and tears streaming down her cheeks as she thanked her rescuers. She was attended by Ambulance Surgeon Campbell and removed to the Eastern District Hospital. No one had seen her climb over the gates in the rear of the boat, and it was only after she struck the water that she repented and screamed for help. Mrs. Machmard is 29 years of age, and lives with her husband and several children at No. 35 Tenyck street, Williamsburg. She declares that family troubles led her to attempt suicide. An officer was detailed to watch her until she is able to appear in court.

A TALE OF LOVE, COURTSHIP AND PARENTAL OPPOSITION.

**Mary Owen's Beau Was Not Punctual, and Missing His Intended Bride, He Went Back to the Farm, While She Went Out Into the World to Make Her Living as a Seamstress.**

"MY daughter, Mary, ran away from home two years ago next June," said G. J. Owen at the Laclede Hotel this morning after Clerk Wesley Austin registered for him.

Mr. Owen is a resident of Reyno, Ark., or rather he lives on a farm three or four miles from there. He came to St. Louis this morning on the early train in answer to an advertisement which he saw in the SUNDAY POST-DISPATCH of March 23. The advertisement was as follows:

WANTED—Situation as seamstress. Mary Owen, No. —— Lynch st.

"I knew that was Mary just as soon as I saw the advertisement in the paper," said Mr. Owen. "She can cut and fit a dress just as well as any one else and just as soon as I saw that piece in the paper I came right here to see if I could find her."

"But I'm afraid I can't do much," he continued, as he brushed the back of his hand over his eyes. "I don't believe she will come back home but if she will go to school I will pay her board and buy her clothes. I am able to do that. I have cleared forty acres more of my farm since she went away and I have got a good farm, too.

"I'll tell you how she happened to run away from home.

"She was 17 years of age, and there was a shiftless, lazy fellow who was working with me. He furnished the team and the tools and I let him have a piece of land to work on shares. He was to give me half the crop. Well, Bill, he was a lazy, shiftless sort of a fellow, and the first thing I knew, he up and fell in love with Mary. She had always lived at home and had never seen many fellows, and so I suppose she kind of fell in love with him a little, too.

"One day I was plowing in the field next to the one Bill had and I saw him stop his team and climb over the fence towards me. I didn't pay much attention to him because I supposed he might be after a snake or a squirrel."

"'Hold on there,' said Bill to me.

"I stopped and he came up shambling along. He was a tall, loose jointed cuss, with a little straggling whisker around his chin. He was a great tobacco chewer, was Bill. He used to chew as much as half a plug a day.

"I allowed that perhaps Bill wanted to say something about the crops, so I says 'What's up?'

"Bill he hemmed and hawed and spit and when he started to speak he acted as though he had something in his throat. Finally he said, 'I want to see you about Mary.'

"Now don't you know I was surprised. I allowed that Bill was kind of struck on Mary, but I didn't believe that he was so far gone.

"'What are you going to say?' I said.

"'Well Bill he hemmed and hawed and spit again and then he said kind of foolish:'

"'We want to get married.'

"'Married' says I, why Bill you can't support a wife, look at that crop of potatoes. Look at that corn. They are all weeds and look as weak and puny as though they were sick. If you can't take care of a crop, Bill,' says I, 'You can't take care of a wife.'

"Bill didn't appear to know what to say. Finally he said:

"'I want to marry her and she says she's willing to marry me, and we didn't suppose you would care.'

"'Bill,' says I, 'I'm a hard working farmer. I've toiled and sweated to get this piece of ground, I've sent Mary to school, and she has got a good education. You haven't got any education and you are lazy. You couldn't support her at all, and I won't support you both.'

"Bill he turned around and walked over to the fence, climed upon it and sat down and

PULLED HIS HAT DOWN

over his eyes. Then he took out his knife and commenced whittling. Bill was a powerful whittler. He would make kindling of a fence rail in no time. I plowed around for a few times and he sat there all the time. Finally he got down and unhitched his team from the plow, right where it was, instead of going back with it to the other end of the field as most any man would have done. He hitched his team up to the wagon and drove home.

"Bill didn't go near the field for several days and the weeds were growing up all over the field. The crop was going to ruin and Mary was moping and paying no attention to the house and the cooking. Bill used to sit around on the fence and smoke and whittle and the crop was going to rack and ruin. I had a half interest in it so I just offered to buy his half because I didn't want to lose my share even if he didn't care about his. I bought it of him and paid him in cash expecting that he would go away but he kept hanging around all the time.

"One day, it was on the 16th of June, he was around the neighborhood, but I didn't suspect anything. That night, when we were all in our beds, Mary got up quietly, dressed herself, and with her shoes in her hand crept out the door. That's the last I saw of her.

"When I got up in the morning Mary was gone. I looked around and then I just allowed that Mary and Bill had made it up to run away together and get married. I went to Corning and found out that Mary had bought a ticket to Poplar Bluff. She had walked fifteen miles, from home to the railroad station, and then got her ticket.

"I came back home and went to work and I found out that Bill was hanging around the neighborhood again in a few days. He had taken some of the money I give him for his share of the crop and given it to Mary to buy her ticket. They were going to meet some place, but Bill didn't get there in time, so she went alone. He allowed that she would wait

AT POPLAR BLUFF

for him, so he up and walked to that place, but she had gone with the money. Then he walked back and he is hanging around there yet."

Mr. Owen is a fairly successful farmer with a good home and a number of children. Mary is a half sister to the others and is the oldest one. Mr. Owen has his younger daughters in school and he has with him a letter from one of them to Mary asking her to come home and giving a little girl's description of the farm, the little pigs, the calves, etc. Mr. Owen says he will be satisfied if Mary will let him pay her board and purchase her clothes. He would like to have her come home, but does not expect that she will do this.

This morning he went out to the house at 1010 Lynch street and asked for his daughter, but was told that she was not there and had not been there at all. He decided to advertise in the papers for her and will remain in the city until to-morrow, when he will return home. He does not yet know whether the girl of the same name advertising from the address at Tenth and Lynch street is his daughter or not.

**Remembered the Firemen.**

The following communication to Chief Lindsay of the Fire Department from F. W. Drury, Manager of the General Southwestern branch of the Walter A. Wood Mowing & Reaping Machine Co., located on Randolph, near Twenty-second street, fully explains itself:

AMUSEMENTS.

**Booth and Modjeska in "Richelieu"—The Opera Sale—Notes.**

The Booth-Modjeska combination, for its first appearance in St. Louis last evening, was greeted by a splendid audience at the Olympic—splendid in every way, in numbers, crowding the theater, and in character and intelligence equaling anything ever seen in St. Louis. The play was Bulwer's powerful "Richelieu," and if it ever received a stronger presentation than at the hands of Mr. Booth and supporting company last night the occasion is not remembered. Booth has been charged with being negligent and careless, relying upon his reputation to carry through a performance successfully, and there is no doubt that he has merited the suspicion—whether his seeming negligence was real negligence or not or whether he was relying on his reputation or not. But there was no room for this charge or suspicion last night. In this most trying of characters he was indeed Richelieu. There was no weakness, no passing over or skimping any lines or scenes or emotions—everything was done perfectly. The audience appreciated this fact, too. On Booth's first appearance he was greeted with some warmth, but it was not the enthusiasm that could be expected in the reception of a great actor—rather that of an audience which hoped to be delighted, but feared disappointment. This fear disappeared, however, in very short order. The actor had spoken but few words when it was evident that he was the old Cardinal in life, and from that out the applause was unanimous and hearty. This was marked in each of the acts after the first, but reached its climax in the curse scene in the fourth act, and was repeated at the close of the performance in the succeeding act. The curse scene was a remarkable one, and it is doubtful if ever Booth gave it more terribly and more impressively. In the succeeding scene, too, when de Baradas seems to have defeated him, and when he overcomes him and is reconciled to and re-created minister by the King, he was the master of his art. Many other instances might be mentioned, but these are enough to show that Booth appreciates his full strength, and the fact that his utmost endeavors are due to his audience. There are two others, however, which cannot well be passed over—lines in both instances addressed to Francois, the page, one, the might of the sword and the pen, the other, that there is no such word as fail. Booth in both rises fully to the grandeur of the sentiments, and puts all of his art into his utterance of them.

Of Mme. Modjeska but little can be said. The play of "Richelieu" is one for the star: it offers no part for a really great actress. She makes the most of what opportunities she has, however, and last night was really Julie de Mortimer. She was given a warm reception on her first appearance, and through the play abundant evidence of the appreciation of her audience.

The company supporting Mr. Booth and Mme. Modjeska also deserves good notice. The rule is to surround great actors with poor ones. This is an exception. The company is strong individually and collectively. Frederic Vroom, Lawrence Hanley, Charles Hanford, Otis Skinner, Charles Koehler, Ben G. Rogers, James Taylor, Rankin Duvall, Mrs. Beaumont Smith, all are equal to any demands made upon them. In "Richelieu" last night Mr. Otis Skinner was Adrian de Mauprat, and he was a splendid one, too. His performance, next to Booth and Modjeska, was the one of the evening, though Mr. Hanford made an excellent Count de Baradas, treating the subject with intelligence and strength. Another commendable bit of acting was that of Mr. Duvall as Francois, the Page. His lines are few, his work limited, but in all he showed the making of an actor. Mrs. Beaumont Smith was very sweet as Marion de Lorme.

The staging and costuming were magnificent and costly.

To-night "Hamlet" will be presented with the following cast:

**A Retreat at St. Vincent's.**

The spiritual retreat of the pupils of St. Vincent's Seminary at Grand and Lucas avenues closed on Sunday morning when Holy communion was received by the ladies and children who had followed the religious retirement. This retreat is an annual one of the popular seminary and takes place regularly during the Lenten season. Within the time devoted to the exclusion of worldly claims the pupils laid aside study and gave themselves entirely to prayer and instruction. Upwards of ninety pupils assisted in the pious exercises this year, among whom were the post graduates. A number of well-known and prominent society ladies of the West End also participated. The pious exercises were conducted by the Rev. Aloysius Blakely (who as a Passionist missionary has become celebrated), Rector of the Louisville Monastery, Ky. The religious duties began each morning with mass at 8 a. m., and closed at 4:30 p. m. with benediction, in which time the altar of the pretty chapel of the seminary was exquisite in its floral decorations. Calla lilies, roses and the rarest hothouse plants glowed about the tabernacle, whilst the entire altar was ablaze with waxen lights and tapers. The sermons of Father Blakely created the most profound interest.

Judge Childs, who enjoys a ... laugh himself, fairly shook in his sea... times. All the trouble came of a little adv... tisement. It read as follows:

Infallible; detection impossible. Satisfaction ... success guaranteed. Win any one's love. You ... it sure. Learn by mail. Only 9c stamps. No postals answered. Seal well. Address Bureau of Science, Buffalo, N. Y.

Paul James Gregory, the professor of this scientific treatment, resided in Buffalo. He has been termed by his many students the love charmer. He claimed to have discovered a scheme whereby men and women could win the undying love either of their friends or entire strangers. From his office in Buffalo he has been sending circulars, calling attention to his wonderful discovery, through the mails. The business, it is claimed, brought him a revenue of $25 weekly. One of the first letters read was sent by Gregory to Francis A. Mortimer of Pottsville, Pa., a lawyer, who corresponded with him under the name of Frank Hugh Smith. In the letter Gregory says among other things:

By following my instructions you can gain a woman's love as readily in a church or on the street as by long courtship. A certain glance of the eye, a twitch of the hand or head may secure for you the love of the most beautiful woman.

The Government presented a number of letters in evidence that were received by Gregory in answer to his advertisement. The following are two extracts from some of them. A lady from Boston writes:

I have longed to be loved for twenty years, but as yet cannot find the secret. I would give anything if I could get a man to love me,

A young woman from New Orleans says:

I am 18 years old and passionately in love with George Francis Train. Tell me how I am to win him.

Another letter reads:

I am 77 years old, but do not give up hope of being married before I die. Give me the secret of true love and you will prove yourself a philanthropist.

From Dakota comes the cry:

I want some one—I don't care who he is—to love, I am red-haired and live on a Dakota farm. Send the secret by telegraph, C. O. D.

The following was received from a Utica woman:

I think, after many years of reflection, that I would like to gain the love of a nice, clean old man. I am 42 years old, a widow, and have my eye on a wealthy old bachelor. The quicker you send me the secret of love the better, for I am burning with the desire to gain the marriage state. If the secret is successful you will receive $1,000. If you fail, I am lost. Delay not, for I shall hourly expect your message.

A young Vassar girl says:

I am a young student and do not know what love is. I am anxious to make it a study. I want your aid and assistance.

Gregory's case was given to the jury on Saturday night. They were out all night, and Judge Coxe discharged them on Sunday morning as they were unable to agree. The defense was that the paper in which the advertisement was inserted was not allowed to pass through the Post-office, and that Gregory was only teaching what scientists have practiced for years. Postmaster Sackett of Buffalo testified that the paper had been received in the mails. Francis A. Mortimer testified that the reason he corresponded with Gregory was because he knew the scheme was a fraud and that he wanted to see what there was in it and bring Gregory to light.

**Isom Chambers Pleads Guilty to Assault With Intent to Kill—Other Cases.**

Yesterday morning in the Criminal Court Isom Chambers pleaded guilty to the charge of assault to kill and was sentenced to serve three years in the penitentiary. A second action against Chambers for assault to kill was nolle prosequied.

Chambers is a colored man. From all accounts he is a pretty tough customer. He has served one term at Jefferson City. It appears that on February 7 he had some trouble with his sister, Betty Robinson, at her home, 4023 Papin street, and assaulted the woman with a knife. Mrs. Robinson managed to escape from the room and fled to the house of Mrs. Rhodes, near by. Chambers followed and cut her once on the arm. Mrs. Rhodes, in her efforts to protect the woman, was also cut.

ANOTHER ASSAULT CASE.

The case against Timothy Donovan was on trial yesterday in the Criminal Court. Donovan was charged by James Sargent with assault to kill. Both men are drivers of moving vans. It seems that they had some trouble over a load several months before the alleged assault took place. At that time and several times previous, Sargent is said to have threatened Donovan with violence. On October 24 Donovan went to Mayor Noonan and told him of the trouble. He was given a permit to carry a revolver. The next day the trouble took place, Donovan shooting Sargent in the breast. The defense is that Sargent first struck Donovan with a short, heavy iron bar. The case went to the jury yesterday afternoon. A verdict of not guilty was returned.

A THIRD CASE.

William Jones was tried in the Criminal Court yesterday afternoon on an indictment charging him with assault to kill. Jones, who is a colored man, was prosecuted by a young negro named Bud Brown who showed a lon... scar on the right side of his neck as proof ... Jones' prowess. The assault took place las... ## NO MORE QUOTATIONS.

### THE CHICAGO BOARD OF TRADE STOPS ITS MARKET REPORTS.

**The Last Move in the Warfare Waged Against the Bucket-Shops—No Further Official Quotations to Be Furnished—Bucket-Shop Keepers Declare That They Will Have Them—The Present Situation.**

A NEW regime was inaugurated on the Merchants' Exchange and in the bucket shops this morning owing to the withdrawal of the Chicago official quotations. Yesterday they appeared for the last time and to-day were shut off. This was owing to the action recently taken by the Chicago Board of Trade, the avowed object of which was to hamper the bucket-shops, and if possible compel them to go out of the business. The fight has been going on for more than eight years, the directors of the Board of Trade endeavoring to cut off the sources of information and the bucket shops replying by injunctions, which were universally successful.

THE LAST STRUGGLE

took place in the Superior Court of Cook County, the Judges holding that the Board of Trade, so long as it authorized the issue of official quotations, could make no discrimination as to the persons to whom they were supplied. The Board of Directors then determined to cease issuing official quotations to anyone after March 31. The telegraph instruments were ordered off the floor, and to-day the official Chicago market, which has so long been a most potent factor in the business of the country, no longer exists. This extreme course was taken after consultation with a number of the leading grain dealers and commission merchants of New York, with the understanding that similar action would be taken and the bucket-shop proprietors starved out. Not a little anxiety is expressed in Chicago, judging from the tenor of the letters and telegrams received from that city, lest the New Yorkers should be either unable or unwilling to carry out their part of the bargain, in which case the effect of the withdrawal of the Chicago quotations would not have nearly as much effect as had been expected, as the result would be simply to substitute the New York for the Chicago market [illegible] open Board of Trade.

THE BUCKET-SHOPS DEFIANT.

[illegible] the Merchants' Exchange this morning New York quotations were substituted for [illegible] of Chicago, and this course will [be] pursued in future. The great interest is centered in the bucket-shops, as upon their ability or [ab]ility to obtain quotations from Chicago [depe]nds the failure or success of the move [made] by the Board of Trade of that city. To-[day a]fforded no test, as owing to the election [pro]gress in Chicago no quotations were [made]. The proprietors of the bucketshops [decla]re that they will have no difficulty in [reac]hing the Chicago markets to their customers. They will, of course, lack the official stamp, but the bucketshops will be [no] worse off than the rest of [the c]ountry in this respect and they positively assert their ability to obtain [the m]ost accurate information of every [chang]e in the market, and to give continuous [quota]tions as steadily as if no boycott had [been d]eclared. The directors of the Chicago [Board] of Trade are positive that no continu[ous qu]otations can be sent out, and the out[come] is watched with keen interest.

THE FIRST FEW DAYS

[wil]l tell the story, as both sides may have [a]n unguarded which can be defended by a [c]hange of system. Should continuous [quotati]ons be obtained by the bucketshops and [sp]eculating public receive them as [befo]re it is believed by many that after a [tri]al the official quotations will be restored. Should the Board of Trade succeed in carrying out its plan [gener]ally the general opinion is [that th]e markets both of New York [and S]t. Louis will rise to a position of much [greater p]rominence than they now occupy. [If the] bucketshops should fail to obtain [the] Chicago quotations or should find [ther]e was serious objection to their au[thorit]y made by the public, all attempt to [...] will be given up, and the St. Louis [and New] York markets substituted.

NEW YORK, April 1.—Alfred Hargraves came here from Manchester, England, five months ago with £200. A week ago last Saturday the steamship Germanic arrived with Mrs. Alfred Hargraves and her two daughters, Eliza, 9 years, and Janie, aged 5 years. Mrs. Hargraves went at once to the Cornish Arms, 11 West street, to find her husband. The proprietor told her the man she was looking for had been his guest with a woman he called his wife several months ago, but had gone away. Mrs. Hargraves fainted. When she recovered she went to Detective Groden of Castle Garden. She said she was married ten years ago in Manchester and had always lived happily with her husband, who was a commercial traveler. He wanted to come to America and finally started saying he would send for his wife and children as soon as he secured work. He wrote frequently, but always said he was not making quite enough money for his "darlings to come just yet." Then the letters became less frequent and finally stopped. The wife waited a few weeks and then sold her household goods and followed her husband. She thought he must be dead. Groden found that Hargraves and the woman who played the part of his wife had moved to 70 Willoughby avenue, Brooklyn. At that address, the landlady said two such persons had rented a suite of rooms from her and had left between midnight and sunrise without paying their rent. She said that Mr. Hargraves was employed by the Metropolitan Insurance Co., in this city. Mrs. Hargraves and her two children and Mrs. Bowman waited in front of the company's office all the next day, but Hargraves did not appear. The following day the insurance people found that their collector was missing with considerable cash which did not belong to him. His last collection was $100 from a poor woman on the East side who only owed the company $1. She gave him a $100 bill and he left his collection book until he could have the bill changed. The woman still has the book.

**Eva Hamilton Wants Money to Fight Her Husband's Divorce Suit.**

By Telegraph to the POST-DISPATCH.

NEW YORK, April 1.—Evangeline Hamilton, who is now serving a term of two years in Trenton Prison for assaulting Nurse Donnelly, made application yesterday through Lawyer Charles W. Fuller, to Judge Andrews in the Supreme Court, for an order directing Robert Ray Hamilton to pay her $5,000 with which to employ counsel to defend the action brought by Hamilton for an annulment of his marriage with her. Mrs. Hamilton in her petition says that Robert Ray Hamilton has real estate in New York and Brooklyn valued at $350,000, and that he has an annual income of $18,000. She says he is trying to force through the divorce proceedings while she is in prison. Mr. Hamilton, she says, paid the lawyer who defended her in the assault case $1,000. She says she is unable to pay her lawyers, and as the suit for the annulment of the marriage will be brought in Elmira, the expenses will be heavy. S. B. Clarke, who appeared for Mr. Hamilton, said that his client did not admit the matters of fact in Mrs. Hamilton's affidavit, but for the purpose of this motion he was unwilling to contest it. Mr. Hamilton says in his affidavit:

"I am ready to pay such sum as the court may think necessary, but I respectfully submit that she is in no need of money."

Mr. Hamilton also says that when he notified his wife on September 24, 1889, that he intended to take steps to have the marriage annulled, he sent her titles to property amounting to $3,000. This property consisted of a bank book of the Bank for Savings with $1,000 credited to Eva L. Mann, a bond and mortgage on property in Passaic worth $1,500 and an assignment, executed by Mr. Hamilton to Evangeline L. Mann of another mortgage worth $450. Mr. Hamilton says that Mrs. Hamilton, being in jail, has had no opportunity to spend this money. Judge Andrews reserved his decision.

## THE VENICE ELECTION.

### CHARGES THAT THE MERCHANTS' BRIDGE CO. WANT TO CONTROL IT.

**Maj. Rainwater Denies the Allegation and Claims That Interested East St. Louisans Are Prejudicing the Venetians—He Admits His Company Intend Platting a Town and Want a Number of Franchises.**

An election for township officers is being held at Venice, Ill., to-day and the opponents of the regular caucus ticket allege that it represents corporation interests. They claim that the corporations and particularly the Merchants' Bridge people are making a systematic effort to obtain control of what few political offices there are in connection with the administration of the affairs of the town and the county adjacent to the eastern approach of the bridge. A resident of Venice, who is opposed to the ticket which the Merchants' Bridge people are alleged to be supporting, made the following statement of the case:

A CITIZEN ON THE CAUCUS.

"A star-chamber caucus was held to nominate candidates for the offices to be filled at this election. The ticket was made up without consulting the citizen, farming and tax-paying interests, and this aroused such a keen feeling in the opposition that they held a meeting and nominated Mr. Chris Ahrens against the caucus ticket for Supervisor. Mr. Ahrens' interests are identical with those of the citizens, farmers and tax-payers generally, whereas the caucus candidate, who is the present incumbent, is fully in sympathy with the corporations. Not only the township but Madison County generally, is against any corporation rule, and the farming element will fight against it to the last. The feeling has been increased, too, by reason of Maj. Rainwater, President of the Terminal Railway Co., referring to the people of Venice as living in a swamp among frogs. The bridge people have a favorite scheme of establishing a big manufacturing town at the east end of the bridge, with gas, water, electric light and power, etc., and desired to have Venice included in the limits with full-fledged long limit and exclusive franchises. Several secret meetings in this interest were held, and indignation being expressed Maj. Rainwater, as the representative of the company, said if the people preferred to live in a swamp among frogs the company had no objection. This language has greatly increased the feeling against the corporations."

MAJ. RAINWATER SCOUTS THE IDEA.

Maj. Rainwater was seen at the office of the Merchants' Bridge this morning and asked what truth there was in the story that the corporation was endeavoring to control politics at Venice.

"Our experience here with our own Council has not been such," he remarked, "as to make us desire to dabble in politics in Venice or anywhere else. I do not know who the candidates are in Venice nor when the election takes place over there except that it comes off some time this month. It is true that we do want to consolidate a proposed new town at the east end of our bridge with Venice and desire the consent of Venice to grant us franchises for gas-works, water-works, an electric light plant, a street railway and other things necessary in a live, energetic, modern town. We have between 700 and 800 acres of land at the east end of our bridge, and we intend platting out a town there and have already let contracts amounting to $25,000 for grading and macadamizing. We intend using our land over there for yards, machine shops and a town site, and Mr. Guye, Mr. Overall and myself are the trustees of the proposed town. We do not want to antagonize the interests of the people of Venice, and offered to consolidate the two places, provided they will grant us the franchises we need and desire. If they will not do that we shall simply form a separate town of our own and grant ourselves what franchises we wish. We are not within the corporate limits of Venice, and it is they and not us who would be benefited by the consolidation, as it is our intention to endeavor to build up the place, and we expect to make it a larger place than East St. Louis. Our ground stands eleven feet higher than the latter place, and there is no reason why we should not be able to build up a larger and more prosperous city. As I say it is the Venice people who will be benefited by the consolidation and if they do not care to unite with us we shall not endeavor to persuade them to, but shall go on and build up a town of our own. I understand that four-fifths of the people over there favor consolidation, and this opposition is all led by a few soreheads and some East St. Louis people who want the franchises we are asking. Of course, we do not propose to consolidate unless we are granted the necessary franchises first. These franchises are valuable and we will not give them up to other people though we have no objections to outsiders taking stock in these companies after we get the franchises. We already have two or three lumber yards on our land, and expect to get a locomotive works. A company is being organized to start a rolling-mill over there to manufacture sheet iron, such as is employed in light work. This mill is to give employment to about five hundred hands. Two or three of the largest railroads in the country have been buying up land adjoining ours for yard room, etc. We will have no trouble in building up a town of our own, and it is not necessary for us to interfere in the Venice elections, as we do not wish to consolidate unless the people there desire it."

### DULL AND STUPID.

**Kemmler the First Man to Suffer a Legal Death by Electricity.**

By Telegraph to the POST-DISPATCH.

BUFFALO, N. Y., April 1.—It is hard to conceive of the existence of a man born in these days and in this country so morally slow and so stunted in intellect as Wm. Kemmler, the first who will attain the bad eminence of dying by the electric spark. He was resentenced here yesterday. As he came out of Auburn Prison he wore a neat suit of brown, clean linen, a vari-colored scarf with an imitation diamond in it. His black beard had been allowed to grow but it was ragged in places where he had been gnawing it nervously since he knew there was no hope. His face was flushed. His nose and part of the flesh under his eyes were red and marked with dark spots. Beside him was Daniel McNaughton, who has done nothing for ten months past but guard him in his solitary cell. A hand of each was linked with steel to the other. Kemmler said nothing. There was no expression of joy or satisfaction at the prospect of the open country again after his days of loneliness. In the cars he sat quiet, though he and McNaughton are good friends.

"Do you like the trip?"

"It is nice."

The words meant nothing. The impression his appearance and manner conveyed was that he was numb with dread. When Kemmler was first immured he did not know his letters. Now he can read with difficulty a child's book, but the truths of religion are beyond his comprehension. Dull and stupid still, he passed out of the train here and was taken in a carriage to the court room. Warden Durston, who accompanied Kemmler here, stopped for dinner and sent the prisoner to the City Jail, intending to have him arraigned later. In his absence, however, the prisoner was led into the court room. Every inch of space was occupied. Outside in the corridors a crowd craned their necks and stood on tiptoe trying to peer into the room. At 2:10 Judge Childs entered and at once took his seat. The District Attorney asked that the date of Kemmler's execution be fixed. Judge Childs asked if Kemmler had anything to say why the judgment of the court should not be passed.

"No, sir."

"Then the order of the Court is that the former sentence in your case be carried into effect within the week beginning April 28, and that you be returned to the State prison at Auburn and be there kept in close confinement until the time of execution."

That was all. Words as cold and heartless as the science which has been called in to kill him. The old formula of the death sentence ended with a prayer, "and may God have mercy on your soul."

Here, nothing of all this, merely a taking off; a sentence without a word of sympathy or remembrance of a hereafter. Science knows no God, but at least it might be human. Kemmler, it will be remembered, was convicted of killing Matilda Zeigler, a woman who lived with him as his wife. The murder took place on South Division street on March 29, 1889, and was a most brutal one, the weapon used being a hatchet.

### MUNICIPAL ASSEMBLY.

**The Session Formally Closed—Defeat of the Newstead Avenue Railway Bill.**

The Council and House held the last meetings of the session last evening and closed up a good sized portion of the remaining business. A number of bills expired with the session, about the most important of which was the Newstead Avenue Railway bill.

The Council session was brief and all the members were present excepting Messrs. Rohan and Metcalfe. A message was received from the Mayor announcing that he had approved a number of bills, principally public improvement measures. President Walbridge affixed his signature to thirty or more bills and the Council was then declared adjourned sine die.

THE HOUSE.

The House of Delegates passed the bill vacating Main street at Mallinckrodt street for the use of the Mallinckrodt Chemical works, and defeated the Newstead avenue bill after loading it down with amendments. The ordinance authorizing the Merchants' Bridge & Terminal Railway Co. to build a switch connecting its tracks with the Union Stock Yards was passed by a vote of 15 to 8. A resolution was then adopted thanking the officers of the House for their services during the session, and Speaker Alt followed this up on a motion by adjourning the House without day.

## EAST ST. LOUIS AND BELLEVILLE.

### To-Day's Election Across the River—News From the Other Side.

Police Officer Dennis Ryan made an important arrest near the Relay Depot this morning, capturing Samuel McCorkel, who is wanted for a safe burglary at Vincennes, Ind.

The election in East St. Louis to-day is progressing very quietly, but not without a show of considerable interest. The supporters of Citizens' party candidates claim to have every confidence in the return of the Aldermen whose terms have expired and expect to elect most of the township candidates also. The opposition are working hard and had nearly all of their votes in by noon. The polls close at 4 p. m. The indications point to a decided victory for the Citizens' party.

### Belleville.

Acting Mayor White received a telegram yesterday from W. R. Brown, Chairman of the Metropolis Relief Committee, asking aid for the people of Metropolis who were made destitute by last Thursday's cyclone. A meeting of citizens will be held this evening at the Court-house to appoint committees to solicit contributions.

J. A. Willoughby of the *Advocate* succeeded Col. Adolph Engelman as Postmaster of Belleville to-day. The retiring Postmaster was the recipient of a handsome gold-headed cane, which was presented to him last night by Letter-Carrier Baumgarten on behalf of the employes of the office.

Bishop Janssen left yesterday for Milwaukee to attend the funeral of Bishop Heiss.

### Commercial Notes.

The Chicago Board of Trade was closed to-day.

Another good increase in the amount of wheat on ocean passage brings the available supply on land and sea to larger proportions than at same time for past two years.

The New York market quotations were not a glaring success to start off with. They were composed principally of "As" and "Bs".

Liverpool's stock of wheat increased during March 159,000 bu and flour 12,000 sks. A decrease had been looked for. Its stock of corn increased 790,000 bu.

Minnesota and Dakota country elevators' stock of wheat decreased last week 428,000 bu, bringing the total to 5,704,000 bu. It is believed the decrease during March was about 2,000,000 bu. Stocks of wheat in Minneapolis' private warehouses decreased 1,000 bu last week.

In contradiction to the prevalent idea that most of the wheat on ocean passage is for distant arrival, the following from the Liverpool Corn Trade News is printed: "For the next few weeks we must look forward to heavy arrivals, averaging 385,000 qrs. Wheat and flour which, together with an average weekly delivery of 160,000 qrs from English farmers, will afford us 545,000 qrs each seven days to meet the requirements of about 490,000 qrs; United Kingdom stocks that are now in the neighborhood of 1,400,000 qrs therefore stand a good chance of replenishment to a moderate extent."

New Orleans cleared yesterday 22,348 bu corn for Liverpool and 109,996 for Cork.

Exports of wheat from San Francisco last week were 163,330 bu.

Chili reports a good wheat harvest, but offers reservedly at the present low prices.

The Mark Lane Express, in its weekly review of the British grain trade, says: "English wheat is quiet and unchanged. Flour is weak, though an improvement is expected. The quantity on passage diminished 18,000 sacks on the week. Foreign wheats are dull. The price of good old crop Indian is maintained at 35s. Best Russian and American continue at the old prices. Some grades of Russian and Indian are 6d lower. American corn, under enormous imports, has fallen 3d. Oats are weak. Beans and pease are quiet. To-day the market was dull. English wheat was 6d cheaper and foreign slightly lower. Flour was neglected. Malting barley and grinding barley were firm, but slow of sale."

The London Miller says: "If there are 60,000 qrs of Indian flax seed on hand, which the London and Hull markets find difficult to work off in a mild season of small requirements, the quantity on passage is less than a year ago to an extent considerably exceeding 60,000 qrs."

According to the Oregonian, fears are entertained that the present cold weather will winter kill a great deal of wheat in the Willamette valley. There being no snow to protect the wheat, the ground frozen pretty hard, and wherever the sun thaws the ground and it freezes at night the wheat is destroyed. Eastern Oregon wheat fields are to a large extent covered with snow, which will protect the wheat plants from harm.

A Paris circular says: "It is impossible to wish for more favorable weather than that which we are favored with at present. The satisfaction is general, and labor in the field is being actively pursued. Notwithstanding the splendid appearance of the new plant, farmers show not the least inclination to part with what they hold. They seem to think that they can at any time realize present figures, and their offers are consequently very restricted. Millers, on the other hand, only buy from hand to mouth, in short, the tendency is firm, and business is inactive."

Last week's exports from seven Atlantic ports were 7,800 bbls pork, 11,791,366 lbs bacon and hams, 11,409,847 lbs lard, 596,683 bu wheat, 2,379,284 bu corn, 195,489 bbls flour.

Cattle—There were very few cattle to-day of any kind at the Union yards. The run was light of good, inferior and indifferent kinds. The bad weather aided to serve the purpose of light receipts. The activity and small arrivals gave a more active vim to prices, which were a shade stronger all around.

The annexed prices for cattle are furnished by the Union Stock Yards Exchange:

Hogs—The market was about steady to-day at yesterday's prices, with receipts more liberal. The extreme range was from $4 to $4.40, but the $4.40 selling hogs were of a better quality than they were yesterday. The bulk of to-day's sales were made at $4@4.40. To-day's representative sales

Sheep—The arrivals of sheep to-day at the Union Yards were more liberal than has been recorded any day since last Christmas. The receipts were 787, and the market snapped them with remarkable vim at prices that have prevailed for some time past. By noon the pens were empty and the market awaiting for more stock of all kinds.

### The World Beater.

The Union Stock Yards holds the record of getting better prices for hogs than any of her neighboring markets; but yesterday she did herself proud and beat any market in America in all-around transactions in the hog line.

ten days, or two weeks ago, and the bright spring weather was not such as to breed apprehensions, but rather encourage one to look for a favorable outlook for the growing crop. Cables told the same tale of dullness and weakness, more particularly in Liverpool where the stock during March had increased 12,000 sks flour and 159,000 bu wheat, and besides that the amount afloat increased 800,000 bu last week, where for same week last year it decreased 56,000 bu. There was enough to produce a weak feeling and stand off buyers, except shorts, and cause a decline. May selling from 76⅞@77c at opening off to 76⅝@76⅝c and July from 74⅞@74⅞c to 74⅝@74⅝c. From the bottom there was some recovery, but the close was tame at 76⅝c bid for May and 74⅝c.

asked for July, declines of ¼c and ⅛c respectively from yesterday. SPOT GRADES held firmly. The holder of No. 2 red was asking 1c above the May price for round lots, and this price buyers were not prepared to pay, so that the only sale was 1 car in C. at 78⅛c; for regular 77⅝c, and for Cdlt. 77⅜c bid on call. Early in the day 3 cars No. 3 red E. side sold for shipment South at 75½c, but later none to be had at near that and 75½c bid this or E. side, 76c for Cldt. No. 4 68c bid regular, 69c E. side. All other grades were neglected. SAMPLES—Offerings of milling grades were light, with a good inquiry from local millers and low grades selling fairly to shippers. Sales, special bin—1 car no grade at 52c, 1 at 54c, 1 rejected spring at 58c, 1 rejected winter at 72c. 1 car No. 4 at 70c. Track, this side—1 car No. 4 at 70c, 1 car No. 4 at 73½c, 1 No. 3 hard at 70c, 1 at 71½c, 1 car at 77½c. East track—1 car No. 3 hard at 70c, 1 No. 2 hard at 72c, 1 car No. 2 red at 77c, 2 at 77½, 63 sks at 70c, 473 sks at 77c.

**Corn**—This market displayed firmness, but was not so active as yesterday. Net receipts were again light—not over 70,000 bu—and shipments large. Outside markets were steady, but cables weak. Liverpool's stock showed an increase for past month of nearly 800,000 bu and the amount on passage for last week a decrease of 100,000 bu. The continued strength and further advance in the spot market imparted a strong tone to futures and the close was strong at better prices than closed yesterday. April sold at 26⅛@¼c to 26⅜c and later 26⅜@½c bid. May opened at 26¾@⅞c and sold up to 27c, closing at 26⅞@27c. July sold at 28⅛c to 28¼c and at close offered at 28⅛@¼c. August sold at 28⅝c and that bid at close. No. 2 white for May sold at 28⅛c to 28⅛@¼c. SPOT GRADES were again strong and a further fractional advance was paid. Current offerings were small and the principal holders of stock were naming their own price and buyers had to meet them to obtain supplies. Exporters were after both No. 2 and No. 2 white and the order demand took other grades. Sales—No. 2—1 car E. side and 1 regular at 26¼c, 3 E. side at 26⅜c, 40,000 bu E. side at 26½c. No. 2 white—2 cars E side at 27½c, 3 in U and 25 regular at 27¼c, 4 cars E side and 25... 000 bu this side at 27⅜c, 60,000 bu in St. L and C at 27¼c. No. 3 white—1 car in St. L at 26½c; same bid E side, 26⅜c for C and Cdlt. 26¼c regular. No. 3—2 cars in St. L at 25⅜c, 3 E side at 26c; C offered at 25⅝c, bid 25½c for regular, 25⅝c for St. L. No. 4—25c bid E side. SAMPLES—600 sks St. Charles at 27c, 300 bu No. 3 color in s. b. and 99 sks soft St. Charles at 27½c, 35 sks and 1 car St. Charles in s. b. at 28c.

### New York Market Letter.

Special to Rus Samuel.

NEW YORK, April 1.—With the exception of six loads of ungraded wheat worked to Liverpool, the news has been bearish and local operators, both large and small, were marked sellers. Notwithstanding heavy Russian shipments, their stock has materially increased over last month. The Liverpool market is dead and we can hardly look for a demand from that quarter yet awhile.

### GEORGE WASHINGTON'S FATHER.

**The Burial Place of Augustine Washington Finally Located.**

By Telegraph to the POST-DISPATCH.

WASHINGTON, D. C., April 1.—A short time since inquiry was made in regard to the place where the father of George Washington was buried. Diligent search here failed for some time to ascertain the location of the grave of Augustine Washington. But the information has finally been secured. It seems that Augustine Washington, the father of Gen. George Washington, died April 12, 1743, in Stafford County, and his body was brought down and deposited in the vault at Wakefield, near Bridge's Creek in Westmoreland County, where his first wife (Jane Butler) had been buried in November, 1728. The site of this vault and burial ground is correctly located on a chart made in a survey of "Washington's birthplace" by A. Lindenkohl in September, 1827, copies of which chart can be obtained from the office of the United States Survey in Washington. The spot is occasionally visited by tourists, and was seen by Bishop Meade in 1857, who describes its neglected condition as "disgusting." The condition has not been improved since. The burial ground occupies a space fifty or sixty feet square. The arch of the vault fell in many years ago, and the excavation is nearly filled with debris. Near by are two gravestones, one 1,696, marking the grave of two children (John and Mildred) of Lawrence Washington, the grandfather of Gen. George Washington. The other is over the grave of Jane, the first wife of Augustine Washington, the father of the General, with the date of November 24, 1726. There are other fragments of gravestones lying around. The whole place is overgrown with vines and burdocks. It is a question as to who has a legal title to the spot now. In 1813 Col. George C. Washington sold the Wakefield estate to John Gray, but made a reservation of the old "family burial ground" and sixty feet square at the birthplace. In 1858 Col. George C. Washington's son, Lewis Washington, granted both spots to the commonwealth on condition that they should be suitably marked and inclosed. The Legislature accepted the grant, but the conditions were not complied with. In 1883 the United States acquired title to the sixty foot square at the birthplace and other land adjoining for the purpose of marking that spot with a monument, but nothing was done about the burial ground. In 1887 Congress made an appropriation for a monument at the birthplace. The work has not yet been executed.

### THREE SUNS AND FOUR RAINBOWS.

**A Very Interesting April 1st Story From Newburg, N. Y.**

By Telegraph to the POST-DISPATCH.

NEWBURG, N. Y., April 1.—The unusual sight of three suns and four rainbows at one time created no little excitement, surprise and alarm here at 7:10 yesterday morning. The alarm of course came from the superstitious, who did nothing for the remainder of the day but prophesy misfortunes, storms and tornadoes, and some even went so far as to claim that Gabriel's trumpet would soon sound. The phenomenon, as stated, consisted of three suns, the genuine sol occupying a central position, while on either side were counterparts which while endeavoring to equal the old original in brilliancy, failed. The three suns had halos about them and outside of them were rainbows. Another rainbow extended across the sky from the zenith nearly to the horizon. The smaller bows disappeared first, then the fac simile suns, and last of all the bow at the zenith, the latter dissolving gradually. The phenomenon was viewed by crowds from housetops. Old river men say it means a terrific storm is now at hand, and quote the old couplet, "A rainbow at morning, sailors take warning." The scientific explain the matter from their standpoint of refraction, and laugh in scorn at the less untutored. Sunday night snow was falling. Let it mean what it will or come from whatever cause it may, the sight will not soon be forgotten by those who witnessed it.

**Victim of a Bogus Marriage.**

By Telegraph to the POST-DISPATCH.

WHEELING, W. Va., April 1.—Eva Stogal, aged 20, who says her parents reside on Canal street, New York, where her father is in business, was found by the police Sunday night wandering about in the rain with a month old infant in her arms. The girl says she left New York December 1 with David Cross after a marriage ceremony had been performed and came here about Christmas. Cross left her after telling her the marriage was bogus. She had no money and after pawning a diamond ring had been living on charity. She is quite pretty.

## NO SUNDAY BASE BALL.

**OBJECTIONS TO THE SYRACUSE CLUB PLAYING ON THE SABBATH.**

**Charles G. Psotta, the Ex-Amateur Champion Sculler of America, Will Take Part in the Henley Regatta—La Blanche and Young Dempsey Matched—New Base Ball Terms—Sporting News of All Sorts.**

THE complications over Sunday ball-playing by the Syracuse American team continues, says a Syracuse telegram to the New York WORLD. The latest move is in Oswego County, where Three Rivers, the summer resort where Syracuse will pay Sunday games, is situated. The Phœnix *Register*, a paper published in a thriving town about two miles from Three Rivers, to-day quotes in its issue the provisions of the Penal Code against Sunday ball, and adds grimly: "A word to the wise may prevent annoying complications." It is understood here that the Oswego County churches will join in an effort to stop Sunday ball, and will co-operate with the Onondaga County organizations in the effort to put a stop to the sport. President Frazer does not seem to be much alarmed. He points out that there are a half dozen summer resorts on Onondaga Lake, both in Onondago and Oswego County, that every Sunday attract thousands of people and that dozens of amateur clubs play on grounds along the lake shore, while a dozen steamers are constantly carrying thousands of people to these places on Sundays. He says that he has as much right to play Sunday games as they have to run their amusement places, and that the District-Attorneys of Oswego and Onondaga counties will hardly move against him in his ball-playing without also proceeding against these summer resorts, which have been running unquestioned for several years past. He will continue arrangements for Sunday games in spite of all the talk.

**McCarthy and Chamberlain.**

Tommy McCarthy, the Captain of the Browns, and Elton Chamberlain, the crack pitcher of the team, send a written statement to the POST-DISPATCH emphatically denying articles concerning them which were published in a morning paper Sunday and this morning. In the Sunday article the serious allegation was made that both players were drunk Saturday night and painting the town. This morning's article was not so serious, merely alleging that the players informed Capt. Comiskey of the Chicago Brotherhood team that they could not join the Brotherhood at present on account of having signed contracts with St. Louis, but that their sympathies were with the movement and that they hoped to be in the Brotherhood themselves next season. In their communication the players claim there is no truth in either published statement.

**Unfortunate Base Ball Players.**

From the New York WORLD.

Base ball players and others prominently connected with the national game will come in for an unusual amount of abuse this season by reason of the fight between the rival leagues. They are prepared for it in a measure, and will take it as philosophically as they can. They are not inclined, however, to submit peaceably to a new system of descriptive terms, which will be launched upon the world by a hitherto unsympathetic and non-interested concern.

When the hard-working and painstaking pitcher awakes in the morning after a cleverly won victory and finds that he is called a schleuderer, who will blame him if he loses heart and fails to keep in form. And likewise will the heavy hitter be excused when he grows wrathy upon learning that the schlaeger stood erect at the schlag-stand and whacked out a dreistandschlag, which fell just within regelrechtes terrain, when in reality he had knocked out a three-bagger just inside of the foul line.

The earnest base-runner is to be called a stand aufer, the agile shortstop a hemmer, the alert catcher a faenger, the elusive strike a fehlball, a called ball unregelmaszig, a balk a versiosz and a bat a keule. The poor umpire, who as it is has about a heavy a load as he can carry, is to be treated the worst of all. He will be known as an unpartheilischer. He at least might have been spared.

The cause of these innovations is simple enough. The *Staats-Zeitung* has taken up base ball, and as that paper is printed in German for Germans, an entirely new set of technical expressions had to be devised in order to make the report of base ball events intelligible. Base ball has advanced another step.

**Great Gregory.**

Writing of a visit to the track where the great little colt Gregory is in training, a correspondent of the New York *Sun* says:

Those who have not seen the flying son of Maccaroon and Abundance since the day he beat Reclare six furlongs in 1:13½ would scarcely recognize the dainty colt in the stout, shaggy fellow that poked his head over the bars and sniffed at the visitors yesterday afternoon. To say that Gregory has done well would be putting it mildly. He has developed into a big horse, not so much as to height as in substance. Mr. Shields blistered both shoulders and legs for the lameness which periodically manifested itself last year, and Gregory took his first breather yesterday morning, pulling up as sound as a dollar. He covered a furlong in sixteen seconds, and from now on will be sent along in regular work. The one that beats him a mile or under will know that he has been to the races.

**Chicago Weights.**

The weights have been announced in the Oakwood and Great Western handicaps to be run at Washington Park, Chicago. There are eighty-six entries in the former with Terra Cotta with 128 pounds as the top weight, and Spokane next with 124, then Santalene 123, Los Angeles 122 and Proctor Knott 121. The 2-year-old filly Lady Scoggan with 80 pounds up is the bottom weight. In the Great Western which is the long-distance handicap of the meeting, Spokane is at the head of the list with 124 pounds up and then comes Los Angeles at 121.

**Will Go to England.**

Charles G. Psotta, ex-amateur champion sculler of America, representing the Athletic Club Schuylkill Navy, will sail on an Inman Line steamer about May 1 and intends to make a strong bid for the diamond sculls of the Henley regatta. Being in excellent condition and rowing faster than usual he feels confident of success.

From latest reports about British aquatics Guy Nickalls is undoubtedly the fastest amateur they have up to date, and the rowing contingent of Philadelphia believe Psotta can beat him over the Henley course, it having been changed, now measuring about one and three-eighths miles. He will leave in fine form and in plenty of time to get thoroughly acclimated to English weather.

**Water Polo.**

"Water polo" is a new game which will be introduced in Philadelphia when the new club-house of the A. C. S. N. is completed. The swimming tank will be provided with black-boards marked in white letters "Goal" at either end and the game will be awarded to the team securing the greatest number of "goals" in two ten-minutes' bouts, with five minutes rest between. The men can pass the ball either under or over the water, but in order to secure a goal the board referred to must be touched with one of the men's hands. This game originated in England and no doubt will become popular here.

**Pool at the St. Louis Club.**

The four-handed game of pool played at the St. Louis Club last night between Mr. E. C. Simmons and Mr. L. M. Kennett vs. Mr. C. B. Greeley and Mr. W. C. McCreery, resulted in favor of Messrs. Greeley and McCreery. The game was 150 points, and the score at the end was 150 to 101. This victory gives the winners the championship of the club, and they stand ready to defend it against any other two members of the organization. It was the third attempt which had been made to play the match, and the greatest interest centered in its outcome. During the first game the referee made a decision to which two of the players took exception, and they refused to proceed with the contest. The game was set for another evening, but sickness in the family of one of the players prevented it, and last night it finally came off with the result stated.

**Pugilists Matched.**

Joe Choynski, the California heavy-weight, is to be matched by the Occidental Club of San Francisco, against Jack Davis, teacher of boxing of the Gate City Athletic Club of Omaha. A purse of $1,750 is to be offered. Davis twice defeated John P. Clough, and is said to be a good man.

George La Blanche, the Marine, and John F. Herget, known in the ring as Young Mitchell, were last night matched by the California Athletic Club to fight to a finish on June 27 for a purse of $3,000, of which $500 is to go to the loser. The men are not to weigh over 154 pounds. Young Mitchell is the middle-weight champion of California and since Jack Dempsey has been on the coast he has made the young man his pupil and gives him the advantage of his long experience in the ring. Mitchell has long been anxious for a go at ... of the Marine, but the Non... rels. Should Young Mitchell defeat the Marine he will no doubt be granted a fight by Dempsey.

The fight between Reddy Gallagher of Cleveland and Billy McCarthy, the Australian middle-weight champion, recently defeated by Dempsey, has been set by the California Club for May 22.

No overtures are being made by the California Club to John L. Sullivan and Peter Jackson, as they think the big fellow will eventually come down to their terms and meet the great colored pugilist for a purse of $15,000.

**Sporting Notes.**

Jockey Tailor is said to have received $150 for riding the mare Cneeney to the front at Clifton. She won a $250 purse, but the ring was hard hit.

C. P. Huntington's purchases of fillies at the Stanford sale may be taken as an indication that the railroad king intends to found a first-class stock farm. He already has the land and some brood mares.

Fordham has done very little since being sold by the Dwyers to Bookmaker Sam Emery. He ran the three-quarters on Wednesday with ninety pounds up in 1:20. The track was in fair shape at that.

Fred Hammer, in reply to the statement that George Mark has challenged him to a 220-yard foot race, writes that he has not received any such challenge and would pay no attention to it if it came, as under no circumstances will he meet Mark.

The California bred stock sent East within three weeks by Messrs. Rose, Valensin, Salisbury and Stanford has realized over $500,000. The get of Electioneer brought by far the highest prices and the entire Palo Alto lot footed up $136,000 for ninety-one head.

A. James of the North End Gun Club of Philadelphia has challenged William H. Walstencroft, the champion trap shooter, to shoot at 100 live birds for $100 a side, to take place near Burlington, N. J., immediately after Walstencroft returns from his tour with the Eastern and Western teams.

Dwyer Bros. have again given way to the monarchs of the winter tracks and will not open at Elizabeth until Tuesday, April 15. Clifton will give its last race on Monday, the 14th, and a conflict which threatened to detract from the eclat of the opening at the New Jersey Jockey Club was avoided.

### STILL AFTER THE BOBTAILS.

**The Northwestern Association Pacified, But North End People No Less Determined.**

The Northwestern and North End Improvement Associations met last night, the former at Teutonia Hall and the latter, the residents of Bryan and College Hills patronizing the Benton, Bellefountaine and Union lines, at Pryor's Hall. The Northwestern people ride on the Mound City Line, and as published in the SUNDAY POST-DISPATCH, Mr. John Scullin, President of that company, has agreed by letter to put on double cars with conductors by October 1, and to change from horse and mule to electric power. On the strength of the letter the association last night agreed to continue to drop their nickels in the box until October 1, and by resolution provided for the appointment of a committee of three to call upon Mayor Noonan and urge him to sign the change of motor bills at once. The North End people had no such agreement from the railroads, however. They discussed the question of rescinding the anti-bobtail resolution, which they passed recently, a copy of that framed by the Northwestern Association, and finally decided not to recede from the terms of the resolution. They will accordingly inaugurate the boycott to-morrow, and will then refuse to deposit their nickels in the boxes.

## A PECULIAR PROCEEDING.

**A DEPUTY GRAIN INSPECTOR FIGURING AS A WHEAT DEALER.**

**A Mistake in Consignment Develops a Condition of Affairs That Excites Much Comment—A Grain Inspector Appears as a Grain Seller—The Explanation Given—A Dangerous Precedent.**

NOT a little comment, principally unfavorable, has been excited among the grain dealers on the floor of the Merchants' Exchange, owing to the fact that it has been discovered that at least one of the grain inspectors chosen by Burks was selling grain on his own account. The man whose action in this respect was criticised is an inspector at a local elevator. The story told on the floor was that the matter had leaked out through a mistake in consignment, the grain which should have been sent to the inspector and dealer having been forwarded to another instead of the one intended.

THIS MISTAKE INVOLVED

only one carload, which was received during the latter part of last week. The wheat was inspected No. 3, but as soon as it became known that it had gone to the wrong elevator steps were taken to have the inspection nullified. This was accomplished, and the grain was sold to a flour mill.

The fact that a grain inspector appointed by the State was selling grain on his own account, was almost daily visiting the floor on a complimentary ticket, was selling to at least one firm doing business on the Merchants' Exchange, and was objecting to any other inspector passing upon the grade of the wheat shipped to him, looked a little curious, to say the least. Remarks were freely made to the effect that this was a most remarkable way for the State Inspector to conduct business, and that it was rather a peculiar course for a man to sell again as a dealer which he was liable to be called upon to pass on as an inspector.

WERE THIS ALLOWED

the position of State Grain Inspector would be a very valuable one, even if salaries were not paid at all, and one holding it could well afford to refrain from complaint when his pay was in arrears. Competition with a dealer who might inspect the grain consigned to him would very difficult, as he would hold a position of vantage over other consignees which, if he chose to utilize it, would give him a very strong pull on the country market, and would enable him to attract a great deal of custom. The fact was also brought up that the holder of a complimentary ticket was entitled only to entrance, and could not legitimately trade on the floor. The inspector in question holds only a complimentary ticket, and is not a member of the Merchants' Exchange. The rumors that were floating about had a tendency to make the Burks regime even more unpopular than it was before.

A CALL WAS MADE

upon the president of the purchasing mill. He said that he regarded the transaction as perfectly legitimate, that he had been in the habit of purchasing wheat from the person in question long before Burks made him inspector, and that he believed that the wheat was his own property. It was true that the car load in question had been inspected by the inspector at another elevator, and that it had been withdrawn, but there was nothing wrong in this as it had been sent by mistake, and it was not intended to have it pass through any elevator. In the case in question the inspector had sold the wheat as an owner, and not as a middleman, and the fact that he was an inspector had not influenced the mill in making the purchase, as the grade of the grain, which was a very good No. 3, which some might have considered No. 2, had been decided upon between them as individuals and had not been passed upon by the inspector in his official capacity. While this explanation was regarded as satisfactory by many, others were of the opinion that to allow a State inspector to sell grain which might pass through his hands was a very dangerous proceeding and one exceedingly likely to lead to abuses. To distinguish the grain which a man might own from that which he was handling on commission would be so difficult as to be practically impossible and the legitimate commission merchants would be liable to be subjected to unfair competition.

### WADDINGHAM'S NEW WIFE.

**The Marriage of the Well Known Millionaire Cattle King.**

By Telegraph to the POST-DISPATCH.

NEW HAVEN, Conn., April 1.—The announcement Sunday that Wilson Waddingham, the recent owner of the large mansion in West Haven, had married Miss Nannie Barrows, the daughter of Maj. J. E. Barrows, at Las Vegas, N. M., March 26, caused much comment among those who were acquainted with the parties. It followed closely upon the report that Waddingham, accompanied by Maj. Barrows, wife and daughter, had left West Haven for New Mexico and that the former had sold out his residence in West Haven and would be an inhabitant no longer. Waddingham applied for a divorce from his first wife in the fall of 1889 in a Chicago court. The case was heard in December. Much publicity was given it because of the wealth and prominence of Waddingham, he being regarded as one of the great cattle kings of the country. The Chicago Judge refused to grant the divorce because he wished to satisfy himself in regard to Waddingham's legal domicile. Waddingham then withdrew the Chicago suit and began one in Las Vegas, N. M. The court there decided that New Mexico was his legal domicile and granted the divorce March 26. On the same day Waddingham and Miss Nannie Barrows were married. It is evident that the party went from West Haven direct to Las Vegas, and that the marriage took place immediately on their arrival. Maj. Barrows formerly lived in St. Joseph, Mo., and whether Mr. and Mrs. Waddingham will reside there or at Las Vegas is not known. Some of their friends are of the opinion that they may return to West Haven, as it is alleged by those who are supposed to know, that Mr. Waddingham is still the owner of the place, because no deed to Maj. Barrows or any other person has ever been recorded. There are now attachments on the property for about its value in the suits of Mrs. Tyler and others against Waddingham, and these are in addition to an attachment on $100,000 worth of cattle company stock held by Waddingham. The house cost in the first instance about $300,000. Mr. Waddingham's first wife, from whom he was divorced, and his daughter are now residing in Chicago. It is said that he has provided liberally for their support. The new Mrs. Waddingham is a handsome and intelligent young lady about 25 years old. Mr. Waddingham is about thirty years her senior. It is said that he is worth several millions of dollars.

**The Ability to Bear Pain**

Is the test of fortitude among the Indian tribes. But we defy any Cherokee, Sioux or Comanche to endure the twinges of rheumatism without wincing. These indeed, are slight at first, but grow in intensity until they become unbearable. No malady is more obstinate in its maturity than that which gives rise to them. The more need, then, of attacking it at the outset. Foremost among remedies for it is Hostetter's Stomach Bitters, safer and infinitely more effective than colchicum, veratrum and nux vomica, all remedies which might prove destructive of life in a slightly excessive dose. Mineral depurents, also, when not positively mischievous, are far inferior, in remedial power to this salutary botanic medicine. It entirely expels from the blood the acrid impurities which originate the disease, and enriches as well as cleanses it. Constipation, liver complaint, dyspepsia and other ailments also give away to it.

**AN OLD CASE UNRAVELED.**

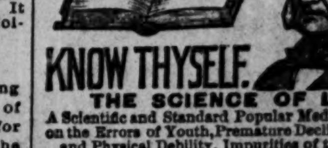

**The Theft of a Bag of Gold From An Express Company.**

BRAINERD, Minn., April 1.—Charles Searle and William Paine, Jr., both sons of prominent citizens at Brainerd, Minn., and youngmen whose character has heretofore been above reproach, have been arrested on a charge of having robbed the Pacific Express Co. of a bag of gold containing $15,000, in 1889. The evidence against them at their preliminary hearing was most damaging. A younger brother of Paine's testified to finding gold pieces in a barn in which Paine had slept, and a courtesan related a story of the robbery which she said had been told her by the young fellows. She said that Searles had dropped the bag of gold through a trap door to Paine who hastened away with it and h[id] it and then went home to his bed in time to be found there by his companion and the officer who went to the house.
